All,

What measurements if any are being done to ensure the Armor Cap material gradation meets minimum specifications for placement?

Subject: SJRWP Armored Cap Enhancement Daily Report, Wednesday and Thursday, January 22 and 23, 2014

Valmichael,

Attached is the daily report for the armored cap enhancement work at the SJRWP site covering Wednesday and Thursday, January 22 and 23, 2014. Sorry for the delay in circulating the Wednesday report, our email servers were having technical difficulties that have been resolved.

Due to freezing rain today (Friday) travel on roadways is potentially hazardous so there will be no on-site activity (or daily report). The armored cap enhancement is scheduled to resume on Monday, January 27, and I expect that the contractor will finish on Monday as well.

Thanks,
Randy

Randy Brown
